

1 **REMARKS**

2 Applicant respectfully requests reconsideration and allowance of the subject
3 application. Claims 1-5, 11-13, and 15-20 are currently allowed. Claim 14 is
4 previously canceled. Claims 5, 6, and 21 are amended. No new claims are added.
5 Claims 1-13, 15-25 are pending in this application.

6
7 **Double Patenting**

8 A terminal disclaimer is submitted to overcome the double patenting
9 rejection.

10
11 **Claim 5**

12 Claim 5 has been amended with a period at the end to overcome an informal
13 objection.

14
15 **Claim 6**

16 Claim 6 has been amended to more exactly reflect the allowable content of
17 claim 14, which was previously amended into claim 6 in the previous Office
18 Action response to make claim 6 allowable. Thus, the final elements of claim 6
19 now read: "...wherein the virtual memory addresses data in the host computing
20 system are identical to virtual memory addresses data of the target computer."
21 This change was suggested by the Office near the end of the current Office Action.

22 Claim 6 now includes all the limitations of allowable claim 14 and its base
23 claim 11, and should now be allowable.

1 **Claims 7-10**

2 Claims 7-10 depend from claim 6. Dependent claims contain the language
3 of their base claims, and since claim 6 is now allowable, Applicant submits that
4 claims 7-10 are now allowable too.

5
6 **Claim 21**

7 Claim 21 has been amended to more exactly reflect the allowable content of
8 claim 14, which was previously amended into claim 21 in the previous Office
9 Action response to make claim 21 allowable. Thus, the final elements of claim 21
10 now read: "...wherein the virtual ~~addresses~~ memory data on the host computer are
11 identical to virtual ~~addresses~~ memory data on the target computer." This change
12 was suggested by the Office near the end of the current Office Action.

13 Claim 21 now includes all the limitations of allowable claim 14 and its base
14 claim 11, and should now be allowable.

15
16 **Claims 22-25**

17 Claims 22-25 depend from claim 21. Dependent claims contain the
18 language of their base claims, and since claim 21 should now be allowable,
19 Applicant submits that claims 22-25 are now allowable too.

20
21
22 **Conclusion**

23 Applicant again thanks the Examiner for facilitating prosecution, and
24 suggests that all pending claims 1-13, and 15-25 should now be in condition for
25 allowance. Applicant respectfully requests reconsideration and issuance of the

1 subject application. If any issues remain that prevent issuance of this application,
2 the Examiner is urged to contact the undersigned attorney before issuing a
3 subsequent Action.
